
HOW TO

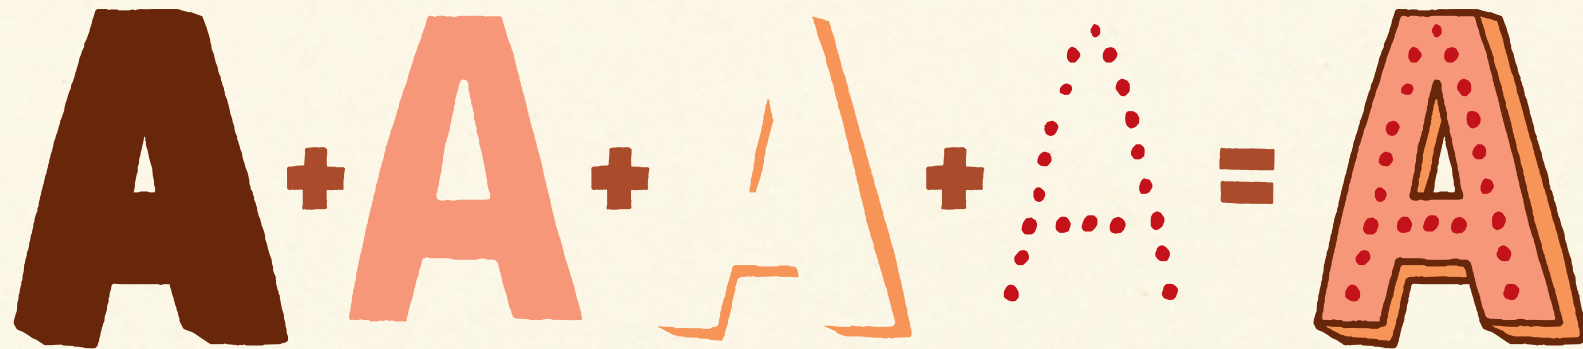

USE

MRS LOLLIPOP

PLEASE TURN ON
OPEN TYPE
CONTEXTUAL ALTERNATES

Mrs Lollipop has alternate glyphs for letters and digits and they'll change automatically. It'll give you even better hand drawn effect. Like in a word **LOLLIPOP** you'll have 3 different **L**, 2 different **O** and 2 different **P**.★★★★★★★★★★

USE TYPE LAYERS TO MAKE COLORFUL LETTERS

1. Background

2. Fill

3. Shadow

3. Dots

Beauty

Start with the **Background** style and put other layers on top of it. Don't use **Outline** or **3D** style in place of **Background** style because you'll have little breaks between letter elements.★★★

USE FRAMES

1. Make text frame and put in frame elements starting with a left top corner. 

2. When your frame is as wide as you wish press **Enter inside the text frame and start building the hight of the frame by putting vertical elements on the frame edges and spaces in between.**

3. When your frame is as high as you wish start building its bottom line.

4. Adjust leading to remove vertical breaks.

You can choose between 3 different types of frames.
